Uganda's popular – privately owned school establishments named; Mother Majeri Mixed Day and Boarding Primary School and Mother Majeri Nursery School; collectively funded the first Cultural Gala at approximately UGX 20 Million (USD 5,700).

"Our Community members come from Uganda, Africa and beyond. We found it necessary to create a platform where children and stakeholders would appreciate, enjoy and embrace unity in Diversity" remarks Mr Basembeza Edward Peter (Head teacher).

However, the cultural gala is not an annual event and/or mandatory program like Educational Tourism, Nursery Graduation Ceremony among others.

"Next year the school shall focus on another vital item as chosen by the School Management Committee. You know it is very expensive to organise cultural Gala Annually" says Mr Basembeza Edward Peter (Head teacher).

The Cultural Gala was well attended by representatives from some prominent schools, civil society organisations, parents and other relevant stakeholders.

Mother Majeri has learners from both National and International Communities. The children exhibited rich cultural values as herein under captured in photographs by the school ICT department.
