Uganda's popular-privately owned educational facilities, named: New Hormisdallen Day and Boarding Primary school – Kirinya and New Hormisdallen Early Childhood Development Centre; are set to become 'an answered educational prayer' for African and other International Communities in Uganda.

Special Life Team, knowledgeably reports a line of uniqueness and some praise-worthy factors propelling New Hormisdallen School Establishments to greater heights and popular global admiration.

Special Life Team, spent about eleven months (between October 2017 – September 2018) harvesting bits and pieces of what could have accelerated the growth and development of New Hormisdallen school establishments to shared confidence and participatory support.

New Hormisdallen Day and Boarding Primary School – Kirinya, is particularly known for its academic excellence.

However, nothing had been articulated about the ingredients upon which the school systems and structures were developed since 2005.

New Hormisdallen is firmly constructed upon other less publicized programs which we herein feel honoured to disclose in-briefs and truthfully.

The good academic performance is largely the outcome of an assortment of programs and standards established to function freely and / or without element of disobedience.

We previously authored and published contents with praise related to academic excellence, high levels of humility etc. This time we serve herein below, some supportive programs that have collectively made New Hormisdallen a praiseworthy name.

## **HOSPITALITY.**

New Hormisdallen Day and Boarding Primary School – Kirinya, was designed to continuously provide a conducive and welcoming atmosphere to visitors from all walks of life. The compound designers spent much time on nature friendly outlook than other components. A spacious garden was carved out of the 10 acre land; leading to the creation of NALUBOWA GARDEN which is spacious, home to many trees and collectively loved by stakeholders. The garden is kept user friendly and trimmed about 4 times every term.

“The very first time I visited New Hormisdallen School five years ago; I instructed my mind to keep focused on this school for my children” explains Muhammad-Amed, a parent.

Nearly all play stations and the gardens are kept under key and lock to manage programs timely and correctly. “There is time for every program. The **Nalubowa Garden** is reserved for visitation and other special functions” explains Mr. Nyango .G. Willy, (Headteacher).

Truly speaking, for the period of eleven months, Special Life Official did not see A pupil or learners at the **Nalubowa Garden**, save for the visitation Days (V.D). “Here, learners are taught to obey rules and regulations. ## **INTRODUCTION TO THE NEW HORMISDALLEN SCHOOL ESTABLISHMENTS.**

Prior to the full introduction of New Hormisdallen School Establishments in Uganda; we proudly recognize the efforts put in place by the Government of the Republic of Uganda to create the Private Schools and Institutions department that was inaugurated in 2008, consequent to the restructuring of the Ministry of Education and Sports to cater for the vibrant and ever expanding private Investments in Education.

Since the government of Uganda decision in 1993 to liberalize the Education Sector, thousands of Schools and Institutions have been set up by Private Investors to provide educational services.

In the Secondary sub-sector, the number of private schools is at about 4,000 (Four thousand), has more than doubled the number of government funded schools.

The private Schools and Institutions Department is charged with the overall co-ordination, regulation and guidance on all matters regarding private schools and Institutions (Ministry of Education and Sports websites Uganda).
