## **IMANI INTERNATIONAL SCHOOL ESTABLISHMENT, UGANDA-AFRICA.**

**By Special Life Team**

**in Africa**

Popular community demand and support for the creation of good quality-early childhood development facilities in East Africa; prompted our community friendly team to search, find and assess some bold factors responsible for the mere survival, stagnation, steady progress and/or complete shut down of some early childhood development facilities in East-Africa.

Unqualified human resources, high rental fees, poor supply of funds, loss of focus, lack of patience, would largely contribute to poor take-off, uncertainties and untimely shut down of such educational facilities.

Its worth noting that children learning under such circumstances, suffer a life-time bad experience and irreparable damage.

However, **Imani International School Establishment** has answers to the popular community demand for good quality-educational services in East Africa.

The establishment has put in place structures and systems to strengthen the supply of good quality educational services to the pride of communities, governments and various stakeholders in Africa.

**Imani International School Ltd** was incorporated on the 27<sup>th</sup> day of June 2016 in the Republic of Uganda-Africa.

It has three (3) Directors, with Nakabiri Caroline Kiracho (Mrs.) appointed as the Managing Director cum Resident Director.

## **REMARKS**

In summary, **Imani International School Establishment** is one of the few educational initiatives privileged to celebrate its second year. Most privately owned schools shut down within less than one year of operations.

Some of the schools were hit by rampant loss of focus and reliance on a sole founder/Director whose decisions would not be reversed no matter how bad. Most of these privately owned schools fear to publicize information and fail to attract timely rescue in case of problems.

It would be proper for every parent to know the owners and registration particulars of every school serving the public/communities. **Imani International School Establishment** disseminates the true strength of unity, oneness, and togetherness for enhanced development across Africa.
